

**Information Warfare Summit (IWS) 11**  
Call for Speakers

The Call for Speakers (CFS) for IWS 11 is now open! Our event is in its eleventh year and promises to be our best event yet! IWS 11 will be held Wednesday, October 3, 2018, from 8am to 5pm. Our location will be the same as years past - Moore Norman Technology Center, South Penn Campus.

We are seeking Information Security speakers to present talks which meet the following criteria:

- Will your presentation be of interest to the InfoSec community?
- Will your talk contain 25- or 50-minutes of total speaking time? If your presentation can fit in either timeframe, please indicate "both" and list your talk length preference.
- If you are considering having multiple speakers, we can accept 3 speakers either on a panel (including moderator) or as co-presenters.
- Is your talk vendor-neutral? We want to provide information sharing. We need to avoid vendor specific presentations.

What we need from you. If your talk meets the above criteria, we want to hear from you! Listed below is what we need to consider your talk for the IWS 11 event:

1. Info about you: your name, job title, employer, email, contact cell phone (if we can text, let us know) and a 100 word or less biography.
2. Info about your talk: a short title and a 100- to 300-word description of your presentation. Please be descriptive about major points, especially what the audience would gain by attending your talk.
3. Please note if your presentation/notes will be available for us to upload to our website later to allow participants to access after IWS.

Please send this information to our CFS email ([infragardok@gmail.com](mailto:infragardok@gmail.com), subject: IWS 11 CFS) no later than **23:59 July 8, 2018**. IWS 11 speaker selectees will be notified by **August 3, 2018**.

**Please note:**

- For the sake of the event, we need you present on the accepted topic. If you decide you cannot present on this topic, please let us know so your talk can be dropped. If you have multiple ideas, please submit them separately as they will be considered separately.
- We need all final information (speaker names, bio, talk title, and description) to be provided no later than **August 31, 2018**. This deadline helps us get timely & accurate conference details out to the attendees. The better informed our audience is, the more engaged they can be with IWS 11 and your session.

If you have any questions/comments, please contact our CFS POC Dana Harper via email ([infragardok@gmail.com](mailto:infragardok@gmail.com), with the subject: IWS 11 CFS question/feedback). We look forward to receiving your submissions to participate at IWS 11 as a speaker!

**Please feel free to pass this along to someone you think might be interested!**
